- **Apartments (Mansions):** These are typically modern, Western-style apartments found in various neighborhoods. They often include amenities like air conditioning and in-building laundry facilities. Expect to pay a significant deposit (often several months' rent) and key money (a one-time payment).
- **Rental Apartments (Aparts):** These are similar to mansions but generally offer more flexible lease terms.

- **Share Houses (Share Houses):** This option is perfect for budget-conscious individuals or those seeking a more social environment. You'll share the apartment with other residents.
- **Traditional Japanese Houses (Machiya):** These historic wooden houses are becoming increasingly rare, but offer a unique cultural experience.

When searching for accommodation, consider factors such as commute time, proximity to amenities, and neighborhood atmosphere. Websites like Suumo and Homes are invaluable resources for finding listings. Language barriers can be a challenge; consider using a real estate agent who speaks English. Remember, securing accommodation in Tokyo often requires a guarantor, which might necessitate finding a local contact or using a guarantor service.

Tokyo boasts one of the world's most efficient and extensive public transportation networks. Mastering this system is crucial for everyday life. The three main players are:

- **Finding a Doctor:** Many clinics and hospitals offer English-speaking services. However, having a basic understanding of Japanese phrases can be beneficial.
