The *Northern Lights* trilogy follows Lyra Belacqua, a precocious young girl living in a parallel Oxford where humans are accompanied by daemons – physical manifestations of their souls that take animal form. Lyra's journey begins with her discovery of a sinister plot involving "Dust," a mysterious substance, and the shadowy organization known as the Magisterium. This plot, meticulously crafted by Pullman, introduces key themes explored throughout the entire *His Dark Materials* series.

- **Northern Lights (The Golden Compass):** This opening novel introduces Lyra, her daemon Pantalaimon, and the mysterious substance Dust. - **The Subtle Knife:** This installment expands the scope of the narrative, introducing Will Parry, another key protagonist whose journey intertwines with Lyra's. Together, they navigate multiple worlds through subtle knife openings, facing challenges posed by the Magisterium and various other factions. This book delves deeper into the concept of parallel universes and the nature of free will.

- **The Amber Spyglass:** The final book brings Lyra and Will's adventures to a climax.
