General Sternwood, a decrepit but shrewd patriarch, hires Marlowe to protect his younger daughter, Carmen, from a mysterious blackmailer. However, the case quickly unravels into a complex web of murder, prostitution, pornography, and gambling, involving a cast of characters as morally compromised as they are alluring. Marlowe's investigation leads him down a twisting path, encountering a series of seemingly unconnected crimes, including the murder of a bookie and a key witness.

The narrative structure itself is a masterclass in suspense. Chandler masterfully weaves together multiple storylines, keeping the reader guessing until the very end. The **mystery element** is intricately layered, with red herrings and unexpected twists that challenge both Marlowe and the reader. The ultimate solution to the central mystery, even decades later, remains subject to debate and interpretation, adding another layer of intrigue.
