Frequently Asked Questions (FAQ)

Q1: How often should I get my town car serviced?

A1: Refer to your owner's manual for the manufacturer's recommended service schedule. This schedule varies depending on the make and model of your town car and will typically involve oil changes, filter replacements, and inspections at specific mileage intervals. Ignoring recommended service intervals can lead to premature wear and tear and costly repairs.

Q2: What type of car wash is best for my town car?

A2: A touchless car wash is generally recommended to avoid the risk of scratching the paintwork. Hand washing is ideal but time-consuming. Always use a car wash soap designed for luxury vehicles.

Q5: How can I extend the life of my town car's battery?

A5: Avoid short trips that don't allow the battery to fully charge. Regularly check the battery terminals for corrosion and clean them if necessary. Consider using a battery tender to maintain a full charge if the car is stored for extended periods.

Q6: What's the best way to clean leather interiors in a town car?

automotive use. Avoid harsh chemicals and always test any product in an inconspicuous area first. Regular conditioning helps prevent cracking and keeps the leather supple.

Q7: How do I know when to replace my tires?
